

## Company History and Product Capabilities

Belle Banne Conveyor Products is a 100% privately owned Australian company. Belle Banne Conveyor Products was established in 2009, with over 60 years combined employee experience in the materials handling industry in both Australia and abroad.

The Belle Banne brand is synonymous with performance, and the original product has served the market successfully for over thirty years, and despite numerous imitations, is still the brand leader in terms of performance, life and value.

# Product Capabilities

## Belt Cleaning, Belt Tracking & Pulley Lagging

- Used in Australasian Materials handling industry since early 1970's.
- Comprehensive range of tried and tested Primary and Secondary Belt Cleaners, Vee-Ploughs, Skirting Systems and Tracking Devices catering to site specific applications.
